*2010 2nd Annual Autumn
Parish Nursing
& Health Ministry
Preparation Curriculum*

The Parish Nurse & Health Ministry Preparation Curriculum is nationally endorsed by the International Parish Resource Center; and developed through the Lourdes Parish Nurse Program Experience. The American Nurses Association recognizes parish nursing as a specialty in nursing. The parish nurse concept holds the spiritual dimension to be central to the practice.

Parish Nurse Program

WHAT IS HEALTH MINISTRY/PARISH NURSING?

A parish nurse/faith community nurse is called to the tradition of healing ministry. Each serves a faith community to help meet emotional, physical and spiritual needs. The parish nurse/faith community nurse is a member of church staff working with the congregation and local community to establish and sustain a health ministry program.

A parish nurse/health ministry program is developed on the following concepts:

- Health ministries are based on achieving wholeness, acknowledging the close connection between mind, body, and spirit.
- Healthcare requires more than medical treatment of disease or illness.
- Health ministries advocate for health promotion and disease prevention.
- Parish nurses/faith community nurses are caring, spiritually mature people who reach out to comfort, console, strengthen, teach and encourage the faith community.
- Parish Nurse / Health Ministry programs may include the following activities: health screening; educational programs which promote wellness by integrating the concepts and practices of faith and health; advocating for clients and connecting them with resources; listening and providing support and referral; training and coordinating volunteers; visitation in the home or healthcare setting.

QUALIFICATIONS

- ♥ Commitment to a wholistic concept of health care; and the spiritual dimension of healing and health.
- ♥ Relationship with others from the faith community and larger community to identify a network for continuing development and support.
- ♥ Time and desire to implement a parish nurse/health ministry program.
- ♥ Active, valid license for registered nurses.
- ♥ Embrace the integration of faith and health as central to the parish nurse role.
- ♥ Demonstrate knowledge, attitude, and skills to practice as a beginning parish nurse.
