

Greetings Fellow Province II Deputies,

I am Carla Burns, General Convention Deputy from New York, and Member of the General Convention Racial Justice Legislative Committee.

Some representatives of diocesan antiracism committees from around the country have decided to have an exhibition booth at this year's General Convention. Its purpose will be to share grassroots, antiracist ideas and initiatives with Convention attendees. Our national church has given us many excellent antiracist resources, and there is wonderful antiracist work happening in dioceses and congregations as well. Our booth would share some of those grassroots efforts.

Examples might be antiracist programs and initiatives completed by dioceses or congregations like:

- community engagement projects
- exemplary congregational/diocesan antiracist webpages
- videos explaining examples of diocesan/congregational historical exploration concerning slavery and race
- antiracism workshop models and resources
- antiracist projects conducted with youth

If you know of diocesan or congregational antiracist bodies who would like to share fliers, brochures and/or videos outlining their work, please, direct them with me at biblio999@gmail.com.

Thank you.

Carla Burns,
New York Deputy
General Convention Racial Justice Legislative Committee Member
EDNY Antiracism Committee Member
